

We respectfully ask King County officials to withdraw a proposed amendment that would add "marijuana growing, processing and retail" as allowed uses within the Vashon Town Plan. We ask that county officials instead support the reconstitution of the Vashon Town Plan Committee, which would be charged with considering this and other changes to the town plan in a process that includes regular public meetings, citizen engagement and a final recommendation to the county no later than Feb. 15, 2015.
